

We design best way for ICT
ICTWAY Co.,Ltd.

Company Introduction

CEO : Cho, Yoo Bok

Established Date : Jan 12th, 2012

Employees : 91 members (Updated : March, 2016)

Business Field : ICT Service, ICT Solution, ICT Infra, ICT Outsourcing, GIS DB Construction

Patent Possession : Approved a domestic patent

General State : Joined Korean venture enterprises, Selected as one of the best enterprises

Vision & Value

ICTWAY's Ideal

The company that gives a head-start over other companies whenever customers want.

The company everybody wants to cooperate.

The company that gives high satisfaction to employees and their family.

Our time is only for customer's value

One second for the best customer satisfaction.
One hour to make meaningful relationship with our customers.
24 hours of service to provide better IT services.
365 days to build customer loyalty.

Business Field

Public Service

National Division, Administration, Real Estate, Transportation, Forest, The Ocean, Safety, Buildings, Environment

Manufacturing Service

Information and Communication, Electronic/Electricity, Distribution

Financial Service

Bank, Insurance, Stock, Credit Card

New Business

Integration of technology and service, Innovative idea, Creating Future-oriented Business

ITO(IT Outsourcing)

Offering optimum technology service at the right time In the right place

BPO(Business Process Outsourcing)

Offering step-by-step work process of business/system

Global

Securing professional manpower with our national and Global partners

Establishment of BPR/ISP

Establishment of BPR/ISP, Plan for the future development, Plan for the short and long term Vision for better business

Research and Development

Securing advanced technology, Development of new technology, Research and development On 2D/3D engine

Innovative Process

The application of innovative process, Aim for maximum efficiency of carrying out the project

Main Projects

Developed Spatial Data open Platform(V-world)

V-world is a 3D map service produced under the sponsorship of the Ministry of Land, Transport and Maritime affairs to help use of the information. ICTWAY fulfills development tasks by cooperating with the spatial data and 3D engine solution partners.

Real Estate Transaction Management System

RTMS is the web site that provides services of the real transaction price about apartments, multiplex houses, town houses and detached houses to the entire nation. ICTWAY performs as a developer and operator on this project.

Building Life Cycle Management System

Building Life Cycle Management System institute and each statute of buildings over whole building life cycle(planning, design, construction, maintenance and demolition). National/building owner (manager)/ inspectors/officers can be provided related information about building easily through that system.

National Spatial Data Infrastructure

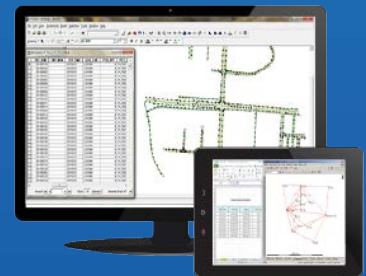

NSDI is integration and connection services with all spatial data by developing from public institutions. Also, it is a governmentwide system. Its main aim is the practical use for administrative tasks and people's daily life.

We have been leading this project since when it started in 2007 and now we perform as the main project operator.

Underground Facilities Integration Management System

UFIMS manages 7 Types of underground facilities such as Roads, Water, Sewer, Electricity, Heating Oil, communication and Gas. Water and sewer are mainly managed by local government. However, Oil, heating, electricity, gas and communication facilities are controlled by public and private institutions. ICTWAY experts performed UIS projects of more than 20 local governments. We currently take charge of development and management of integration system of MOLIT.

GIS DB Construction

The technical experts who have lots of experiences and skills for many years perform whole process by following flawless principle from surveying to DB construction accurately and safely. We perform GIS DB construction projects with the MOLIT and some local governments such as Suwon, Hwa seong, Anuag, etc.

Business Record

Present

2015's

Ministry of Land, Infrastructure, and Transport
